ACADEMIC INFORMATION

❖ 2022: **Master II in Physics, University of Yaounde 1**

Option: **Materials Sciences**

Grade: **Good**

Master's Thesis: study of the femtosecond laser stability during an amorphous silica etching process

Abstract: We studied the stability of the femtosecond laser by numerically solving the complex Guinzburg-Landau equation coupled to the Drude equation. To do this, we used the Runge-Kutta algorithm of order 4, and the implementation was done under the Python language.

❖ 2020: **Master I in Physics, University of Yaounde 1**

Option: **Materials Sciences**

Grade: **Good**

Specialized in subjects such as: mathematical techniques, quantum mechanics, numerical methods, atomic and molecular physics, solid state physics, statistical physics, semiconductor physics, physical chemistry of materials, harmonization of programming skills and materials for energy conversion and storage.

❖ 2018: **Bachelor's degree in Physics, University of Yaounde 1**

Option: **Fundamental Physics**

Grade: **Pass**
